

Cellphone-Holder for filming

Material:

- 2 x Flatstock 6 x 40 x 60 mm (or similar which can be easily found)
- 1 x Threaded rod M6 x 100 mm (or more to fit bigger cellphones)
- 1 x Hex nut M6 plus grip to weld on OR Wing nut M6
- 1 x Washer for M6 rod
- 2 x Foam of any kind to cushion the cellphone

Directions

- 1) Mark where to drill the holes

2) Cut M6 Thread to the lower plate

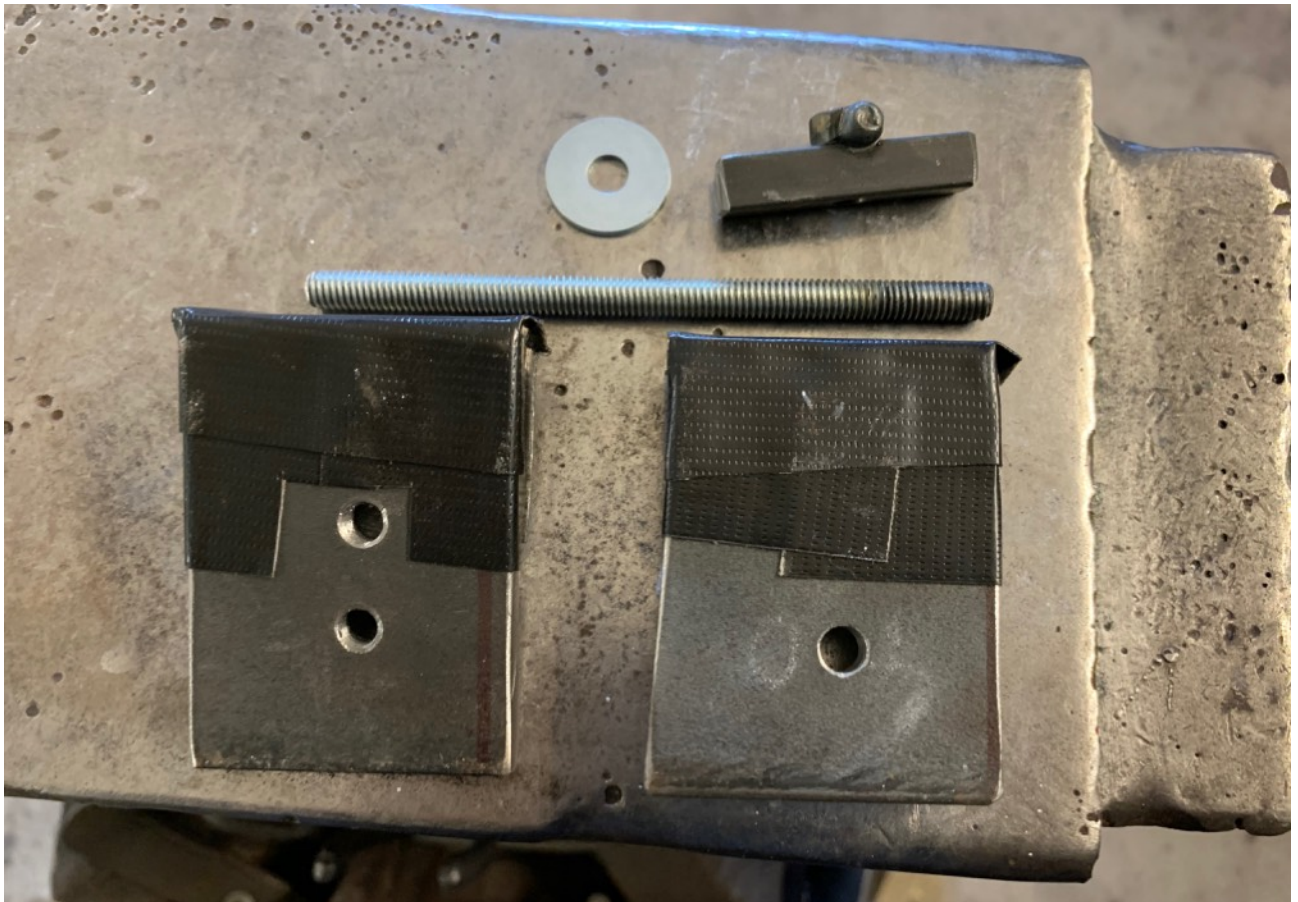

3) Weld Grip to Hex nut

- 4) Attach cushioning for cellphone. Can also be done with other materials.

5) Rivet the threaded rod into place. Could also be welded and afterwards ground.

6) Final assembly

7) Ready to go
